

## Property Tax Rate Scenarios - Household Impact

The tables below summarize the effect of various property tax rates on residential property tax bills. For each tax rate, the tables show the number and percentage of households with an increase, decrease or no change in their property tax bill.

**Example :** At the revenue neutral tax rate, 50.9 percent (164,447) of households would have a decrease and 48.9 percent (157,966) an increase in their property tax bill. If the current tax rate were maintained 60.1 percent (194,094) of households would have an increase in their property tax bill and 36.8 percent (119,021) a decrease.

### County-wide

Tax Rate	# of Households				% of Households	
	Increase	No Change	Decrease	Total	Increase	Decrease
0.7883 (Revenue Neutral)	157,966	577	164,447	<b>322,990</b>	<b>48.9%</b>	<b>50.9%</b>
